

BugSnub™ Ground Stake

For medium and large size dogs

Attach the BugSnub suction cup mount to the ground stake post, and then attach any smooth bottom dog food bowl to the suction cup.
Don't allow the bowl to touch other structures.
-Gus

A smooth and clean bowl bottom is required for the suction cup.

3" Suction Cup

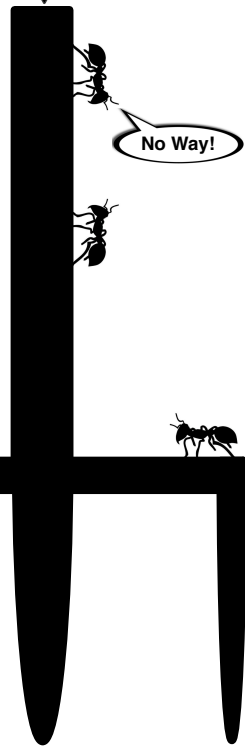

Use your favorite smooth bottom bowl. We recommend a maximum diameter of 10-inches for bowls made from lighter material such as stainless steel. Bowl not included.

Spread the BugSnub insect blocking gel inside all surfaces of the deterrent cup.

Each container has enough BugSnub insect blocking gel for several applications. One application can last more than 1-year.

Post Height 7"
